

THE 30 DAY SUCCESS GUARANTEE

Give Brisa a proper go. If it's not hitting right within 30 days, we won't leave you stuck. We built Brisa to closely mimic the real thing the draw, the throat sensation, the flavour. Our promise: within 30 days of your order, if Brisa isn't hitting right for you, we'll send you 6 cores free (2 packs), hand you our Brisa Strategy Guide, and personally help you dial it in until it clicks. Nobody gets left guessing.

First - what Brisa is, and what it isn't

Brisa is not a vape, and it's not meant to feel exactly like one. There's no smoke and no vapour, because nothing is burned or heated — Brisa works through airflow, aroma and sensory feel, not combustion. It's clever, not magic.

There's no nicotine in it either. It isn't a nicotine product, and it isn't designed to treat nicotine withdrawal or cravings, we make no such claim. What Brisa is a replacement for the hand-to-mouth ritual: built to feel familiar in the moments you'd usually reach for a vape, so you reach for Brisa instead. Go in expecting that, a familiar ritual, not a vape, and it does exactly what it's built to do.

How to claim

So we can actually solve it, not just guess, we'll need two quick things:

1. Your order number, so we can find your order.
2. A quick note on what's not landing, which flavour you're on, how many days you've used it, and what feels off.

That's it. We'll reply with your Strategy Guide and the exact tweak to try, and post your 6 free cores that same week.

Two ways to reach us:

- Our website — message us on the Contact form with your order number and mention "the 30 Day Guarantee."
- Instagram — DM @brisabetter with "30 Day Guarantee" + your order number.

One claim per order. Free cores are sent to your original order address.

Why there's no return or refund on used product

Your Brisa device makes direct contact with your lips and mouth every time you use it. For that reason, once a device has been used it can't be returned, resold, or passed on to anyone else, the same hygiene standard air up and other mouth-contact brands hold. Opened cores can't come back either. So instead of a cash refund on used product, the guarantee gives you fresh cores and hands-on support, real help and more product, not a dead end.

Arrived damaged or faulty? That's a different story. If your device or cores turn up damaged, or develop a genuine fault, that's covered under your consumer rights, see our Refund & Returns Policy.

The fine print

The guarantee applies within 30 days of your order date, to the original purchaser, on the original order. Use it in good faith and we'll always have your back.

"That's the deal. We've got you."
